4. SECTION 4: First aid measures

4.1. Description of first aid measures

General information Ensure that medical personnel are aware of the material(s) involved, and take

precautions to protect themselves. Discard contaminated clothing.

Inhalation Remove person to fresh air and keep comfortable for breathing. Call a POISON

CENTER/doctor if you feel unwell.

Skin contact: Wash skin with plenty of water and soap. Take off contaminated clothing. If skin

irritation or rash occurs: Get medical advice/attention.

Eyes contact Consult an ophtalmologist if irritation persists. Remove contact lenses, if present

and easy to do. Continue rinsing. Rinse immediately and thoroughly, pulling the

eyelids well away from the eye (15 minutes minimum).

Ingestion Rinse mouth out with water. Call a poison center or a doctor if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects after skin contact May cause an allergic skin reaction. May cause skin irritation.

Symptoms/effects after eye contact May cause eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media carbon dioxide (CO2), powder, water spray. For large fire: Alcohol-resistant

foam.

Unsuitable extinguishing mediaDo not use a water jet since it may cause the fire to spread.

5.2. Special hazards arising from the substance or mixture

Hazardous combustion products During fire, gases hazardous to health may be formed. Carbon oxides (CO,

CO2).

5.3. Advice for firefighters

Firefighting instructions In case of fire: stop leak if safe to do so. Cool containers exposed to heat with

water spray and remove container, if no risk is involved. Prevent runoff from

entering water courses, sewers and basements.

Protection during firefighting Do not attempt to take action without suitable protective equipment. Self-

contained breathing apparatus. Complete protective clothing.

6. SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures Do not touch or walk on the spilled product. If spilled, may cause the floor to be

slippery.

For non-emergency personnel

Protective equipment Wear appropriate protective equipment and clothing during clean-up. For

personal protection, see section 8 of the SDS.

Emergency procedures Ventilate spillage area. Avoid contact with skin, eyes and clothing. Avoid

breathing dust, mist or spray. Do not attempt to take action without suitable protective equipment. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Local authorities should be advised if significant

spillages cannot be contained.

For emergency responders

Protective equipment Do not attempt to take action without suitable protective equipment. For further

information refer to section 8: "Exposure controls/personal protection".

Emergency procedures Keep unnecessary personnel away.

Avoid release to the environment. Avoid discharge into drains, water courses or

6.2. Environmental precautions onto the ground. Prevent further leakage or spillage if safe to do so. Inform appropriate managerial or supervisory personnel of all environmental releases.

6.3. Methods and material for containment and cleaning up

For containmentStop leak without risks if possible. Move containers from fire area if it can be

done without personal risk.

Small spills: Clean surface thoroughly to remove residual contamination. Wipe Methods for cleaning up

up with absorbent material (e.g. cloth, fleece). Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with

water. Never return spills in original containers for re-use.

Other information The product is immiscible with water and will spread on the water surface.

Prevent entry into waterways, sewer, basements or confined areas. Dispose in

accordance with all applicable regulations.

For further information refer to section 8: "Exposure controls/personal 6.4. Reference to other sections

protection". For disposal of residues refer to section 13: "Disposal

considerations".

7. **SECTION 7: Handling and storage**

7.1. Precautions for safe handling

eyes, on skin, or on clothing. Do not breathe vapour/aerosol.

Hygiene measures Always observe good personal hygiene measures, such as washing after

handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

7.2. Conditions for safe storage, including any incompatibilities

Keep container tightly closed. Keep out of reach of children. Store in a well-Storage conditions

ventilated place. Keep cool. Keep away from heat, hot surfaces, sparks, open

flames and other ignition sources. No smoking.
